**Industrial Process Heaters**

**Metal Jacketed Drum Heaters**

*Speed Flow of Solid and Semi-Solid Viscous Materials with Tempco Electric Drum and Pail Heaters*

**Design Features**
- Rapid heat-up of drum
- Easy installation and removal
- Durable metal design
- Infinite switch or thermostat
- 3-heat control
- Indicator lamps: green for power, red for heater
- 6 ft. power cord
- Variety of diameters (all 5" wide) and ratings
- Stock to 2 week lead time!
- UL listed and CSA certified

**Thermostat Control** models sense temperature in an area remote from the heating element and will automatically cycle heater to maintain set temperature. Three-heat switch allows three wattage ratings per thermostat setting and voltage rating.

**Infinite/Variable Control** models cycle the current ON and OFF. The ratio of ON time will increase as the control is advanced. Three-heat switch allows the operator to control the heater output within a given 3 settings of high, medium, or low.

**Standard lead time is Stock to 2 weeks.**

**Typical Applications**

**Stock Heated Drum Dolly for Metal Drums**

**Holds up to 900 lbs.**

**Chain Link Reinforced Power Cord**

**Infinite Variable Heat Control**

Heat your 55 gallon drum while keeping it portable. Just place the drum on the dolly’s 3/4" thick x 15-1/4" square heated platen.

The overall diameter is 28-1/2" with an inside diameter of 24". The dolly comes equipped with 3" diameter phenolic casters and a 6 foot long cord and plug.

- Part Number: DHM01001 1750 Watts, 120VAC
- Part Number: DHM01002 1920 Watts, 240VAC
