**Secondary Insulating Bushings**

Used to mount finned strip heaters in air heating applications. Also can be used when it is necessary to electrically isolate the heater from ground.

When Insulating Bushings are required, a 1/2" x 5/8" slot is substituted for the standard slot size (5/16" x 1/2").

**Insulating Bushing Assembly**

Part Number: CERR-1001

**NOTE:** Two assemblies are required for each heater.

When using secondary insulating bushings, the heater must be guarded to avoid any accidental contact. The guard must be electrically isolated from the heater and must be properly grounded.

---

**Ceramic Covers for Insulating Screw Terminals**

*Used on the following heaters:*

- Mica Band
- Ceramic Band
- Mi-Plus®
- Channel Strip
- Finned Strip
- Mi-Plus®

*Provides an electrically safe environment on standard screw terminals.*

*Can be field retrofit or factory installed.*
