

Delivering Cutting Edge Solutions with Highly Customized/Engineered Cast-In Thermal Components

Developing Solutions Through Product Innovation

Tempco is a name synonymous with state-of-the-art technology and a strong commitment to providing practical, cost effective, quality thermal component solutions. We are a widely recognized industry-leading authority in the design, engineering and manufacturing of cast-in heaters and cast-in thermo cooling components.

Tempco's expertise and flexible manufacturing capabilities allow cast-in thermal components to be designed in virtually any imaginable size and shape, including complex and challenging geometries. Casting alloys used are aluminum, brass, and bronze.

Supporting A Diversified Segment of Industries

Tempco has a proven track record of successfully assisting our customers in solving or improving complex and challenging applications with cast-in thermal component technology, whether for heating or cooling functions. We consistently deliver on our commitment to exceed our customers' expectations in a diverse segment of industries from Original Equipment Manufacturers (OEMs), to Research and Development, Life Science, and Maintenance (MRO) Applications.
